Guy Simonian

Objective:

Consulting position as an Oracle application developer.

Command Systems & Cotal Systems Consultant: July 1993-present
Digital Equipment Corporation: January 1985- June 1993

ORGANIZATION: Cotal Systems CLIENT: Ziff Davis   6/94 - 12/94
Constructed a prototype of a system for Ziff Davis to convert SQL*Forms V2.3 and
V3.0 forms under Windows/DOS to Visual Basic form files and applications. This
included an extractor 'advisor' for the DBA to migrate V2.3 and V3.0 triggers
off the form and into the Oracle V 7.0 DBMS.

ORGANIZATION: Digital Equipment CLIENT: NASD   1/93 - 4/93
Designed market data administration system for the National ASD for VAX/VMS
using ORACLE 6.0, SQL*Menu 5.0, Oracle*CASE 5.1 SQL*ReportWriter 1.1, PL/SQL
2.0, SQL*Forms 3.0

ORGANIZATION: Digital Equipment CLIENT: NASD   5/93 - 6/93
Designed a communication link between the Oracle CAES*Designer and
CASE*Dictionary with the CDD/Repository and DECset software tool suite to
enforce referential integrity rules and perform configuration management
functions.

ORGANIZATION: Digital Equipment CLIENT: ITT/Hartford 9/92 - 12/92
Claims loss automation system architect for the Hartford Insurance Group
proposal. Designed multi-vendor specification for $50 million replacement of a
field claims system. Technologies included Oracle V7 under Windows/NT on Alpha
technology, TPframe/Tuxedo transaction processing monitor, DCE Cell servers,
Remote Procedure calls, security servers, directory servers, Oracle Generator
Forms, Oracle Browser, Oracle Report.

ORGANIZATION: Digital Equipment CLIENT: ITT/Hartford   1/88 - 2/89
Configured system environment and trained the first set of developers for the
Hartford Insurance Group's Group Life division field automation project,
involving Oracle DBMS, PL/SQL programs, and Pathworks (Decnet for DOS)
communication under VAX/VMS.

Education & Accolades:
