PeopleSearch Resume of Guy Simonian, 860-523-4567

ORGANIZATION: Digital Equipment CLIENT: NASD 5/93 - 6/93
Designed a communication link between the Oracle CASE*Designer and CASE*Dictionary with the CDD/Repository and DECset software tool suite to enforce referential integrity rules and perform configuration management functions.

ORGANIZATION: Digital Equipment CLIENT: ITT/Hartford 4/93 - 5/93
Claims loss automation system architect for the Hartford Insurance Group proposal. Designed multi-vendor specification for \$50 million replacement of a field claims system. Technologies included Oracle V7 under Windows/NT on Alpha technology, TPframe/Tuxedo transaction processing monitor, DCE Cell servers, Remote Procedure calls, security servers, directory servers, Oracle Generator Forms, Oracle Browser, Oracle Report.

ORGANIZATION: Digital Equipment CLIENT: NASD 11/92 - 4/93
Designed market data administration system for the National Association of Securities Dealers for Open VMS using ORACLE V6.0, SQL*Menu V5.0, Oracle*CASE SQL*ReportWriter V1.1, PL/SQL V2.0, SQL*Forms V3.0.

ORGANIZATION: Digital Equipment CLIENT: Cigna 1992
Led software development effort on a research & development project for the home health care business. Coordinated efforts of voice recognition and artificial intelligence teams to build working prototype of practitioner's monitoring station and home based 'mediphonics'. DecVoice, C, Gensym G2. Effort resulted in a patent on this technology.

ORGANIZATION: Digital Equipment CLIENTS: CCSU, American Cyanamid 1992
Delivered Software Engineering Assessment service which evaluated and reported on the effectiveness of three major factors that affect the software development life cycle.

ORGANIZATION: Digital Equipment CLIENT: Aetna EBD 1992
Constructed demonstration for medical claims system using DECforms, RDB, and DECMessageQ. Used VAX Common Data Dictionary (CDD/Repository) to enforce referential integrity for forms, programs, and database.

ORGANIZATION: Digital Equipment CLIENT: Hamilton Standard/UTC 6/92 - 8/92
Presented and sold the use of DECplan project planning and time management software to key project managers within the division. Worked with members of the Software Productivity Consortium to perform assessment services as part of a larger effort to sell DEC's Cohesion solution for Aerospace and Defense, a 'Software Engineering Environment' that incorporates solutions from companies like Interleaf, PCMS, Cadre, DEC, and a custom pictures to code generator built for Hamilton.

1995-2

PeopleSearch Resume of Guy Simonian, 860-523-4567

ORGANIZATION: Digital Equipment CLIENT: State of Connecticut 1/92
Organized DECforms feedback sessions between client and product engineers.
Issues included style guide availability, editor features, and a Motif editor.

ORGANIZATION: Digital Equipment CLIENT: Kaman 4/91
Sold KAMAN on DECdesign structured analysis and design software using the Gane & Sarson methodology. Also sold the DECset software development environment for the maintenance of the product inventory and distribution application used by the corporate division. DECdesign, CMS, MMS, LSE/SCA, DTM, Dibel

ORGANIZATION: Digital Equipment CLIENT: ITT/Hartford 10/90 - 9/91
Configured system environment and trained the first set of developers for the Hartford Insurance Group's Group Life division field automation project, involving Oracle DBMS, PL/SQL programs, and Pathworks (Decnet for DOS) communication under VAX/VMS.

ORGANIZATION: Digital Equipment CLIENTS: Lego, Pfizer 1990
Delivered and trained management in the project methodology and specifically the implementation of DECplan project planning and time management software.

ORGANIZATION: Digital Equipment CLIENT: Hartford Steam Boiler 1990
Set up and managed PC based email system using Allin1 desktop for DOS, Allin1 for Windows, Netware, Vax Notes.

ORGANIZATION: Digital Equipment CLIENT: Phoenix Home Life 3/89 - 6/90
Managed a project team responsible for the functional system test as well as a loaded stress test of staged software releases on an RDB application for the individual life business division. Networks and system management for large clustered environment utilizing RSM, TSM, LAT, X.25, 802.3, NCP.

ORGANIZATION: Digital Equipment CLIENT: Aetna EBD 1989
Sold software testing, building, and construction products to a team using artificial intelligence for medical history claims validation. VAX MMS & CMS.

ORGANIZATION: Digital Equipment CLIENT: Aetna Office of the Chairman 5/88-11/88
Managed project involving an executive information system for the senior staff using Allin1 system for executive services. Worked with Ken Olsen's personal secretary to help sell and configure this customized solution.

ORGANIZATION: Digital Equipment CLIENT: Aetna CID 3/88 - 8/88
Responsible for organization and deployment of development methodology for use by large data warehouse effort. VAX Common Data Dictionary, TDMS, Cobol, MMS, CMS, Ingres DBMS.

1995-3

PeopleSearch Resume of Guy Simonian, 860-523-4567

ORGANIZATION: Digital Equipment **CLIENT:** Same Jan. 1985 - Dec. 1987
Provided programming design and implementation for Computer Integrated Manufacturing by building configuration control and communication links between engineering databases and process machines including in circuit testers, component insertion devices, and surface mount robotics. Vax Assembler, Vax C, DECnet task to task communication between VAX/VMS and RSX/11M. Parts definition files control used DEC CMS. Applications included ACMS transaction processing monitor, Vax RDB, and VAX Cobol.

Education & Accolades:

B.S. Tufts University, MSEE Rensselaer 1982
1993 "Patient Initiated Medical Monitor using Telephonics & AI" patent
1991, 1992, 1993 Digital International "CASE Partner" selection
1992 DEC User Society Digital corporate representative
1991 United Technologies UTECA presenter
1990, 1991, 1992 DEC "100" club for 100% performance
1986, 1987 Outstanding Software Service recognition
